5/31/2018

Hello Ruby,

Where is EPA in regards to the SS544 RFI report?

Cole

Cole,

We have not received concurrence on our responses to EPA's comments, which you transmitted on 10 May 2018. Once concurrence is received, replacement pages will be transmitted. All responses, except the response in the email below related to Section 2.3, were accepted on 21 December 2017. The response to the Section 2.3 comment is:

Text will be added to Section 2.3 (deviations from the work plan) that explains where microbial samples were collected and why those locations were chosen.

We could proceed with the replacement pages without approval of this RTC. I believe it is low risk.

Let me know if this is acceptable.

5/30/2018

Hello Ruby/Jesse,

How close are we to getting final approval from EPA and KDHE for the SS544 RFI document?

Respectfully,

Cole Knight, AFCEC/CZOM
